According to a recent survey\*, respondents identified the following conditions as having the most impact on their household:

**78%** of respondents said they are more likely to buy a product if it has an independent third-party certification from a nonprofit organization like AAFA.

## What is asthma & allergy friendly\* certification?

The **asthma & allergy friendly**\* certification is a regulated, physician-led certification that accounts for the total installation (product and adhesive) and the ability of a product to be cleaned to minimize the number of allergens released into the environment. This certification helps to set a new standard, and offers consumers a guide for selecting flooring products based on their likelihood to create an allergic or asthmatic reaction.

## The top benefits of using CERTIFIED asthma & allergy friendly\* products

- 63%** said the products/services reduce their, or their family's exposure to allergy triggers.
- 53%** reported that the products/services improve air quality in their home.
- 47%** believe the products/services are better for their health.
